To get started finding 40 hp yamaha outboard manual , you are right to find our website which has a comprehensive collection of manuals listed.

Our library is the biggest of these that have literally hundreds of thousands of different products represented.

Book Descriptions:

40 hp yamaha outboard manual

In this Owner's Manual particularly important information is distinguished in the following OWNER'S MANUAL. ZMU05159 ZMU04977 EMU25262 Manufactured date label 1. Star labels location This label is attached to the clamp bracket or the swivel bracket. EMU25280 One Star—Low Emission The onestar label identifies engines that meet the Air Resources Board's 2001 exhaust emission standards. If the rated horsepower capacity of the boat is unknown, consult the dealer or boat manufacturer. Do not modify the outboard. Modifications could make the motor unfit or unsafe to use. Never illegally discard dump the product. Yamaha recommends consulting the dealer on discarding the product. ZMU05275 Be informed about boating safety. Additional. When you center. Even if no reply is of the way of the other. If the other vessel is heard, however, the vessel should still proceed on your right, you must keep out of its way;. When navigating out of port, your position with respect to the buoys should be reversed; red buoys should be to port and black buoys to starboard. Many bodies of water used by boaters are entirely within the boundaries of a particular state. EWM00010 Stop engine before refueling. WARNING Refuel in a wellventilated area. Refuel GASOLINE AND ITS VAPORS ARE HIGHLY FLAMMABLE. Do not use portable fuel tanks off the boat. All 4stroke engines are shipped from the Yamaha factory without engine oil. Consult your Yamaha dealer for details on installing an optional Rectifier Regulator. EMU25770 Startingear protection Yamaha outboard motors or Yamaha approved remote control units are equipped with startingear protection devices. This feature permits the engine to be started only when it is in neutral. Always select neutral. Fuel tank 3. Commercial users should conform to relevant licensing or approval authority regulations. 1. Power trim and tilt switch 2. http://clubelsendero.com/img_pag/commax-intercom-installation-manual.xml

ZMU03169 When constant speed is desired, tighten the adjuster to maintain the desired throttle setting. EMU25990 Engine stop lanyard switch 1. Lanyard 2. Lock plate The lock plate must be attached to the engine stop switch for the engine to run. When the key is released, it returns automatically to the " " on position. START EMU26070 ZMU03590 Manual starter handle To start the engine, first gently pull the handle out until resistance is felt. From that position, then pull the handle straight out quickly to crank the engine. ZMU02810 If the resistance does not increase even ZMU02908 when the lever is turned to the port side "A", make sure that the nut is tightened to the specified torque. ZMU04038 NOTE For instructions on using the power trim and tilt switch, see page 42. EMU26241 Trim tab with anode The trim tab should be adjusted so that the steering control can be turned to either the right or left by applying the same amount of force. When in EMU26312 Tilt lock mechanism stalling the cowling, check to be sure it fits The tilt lock mechanism is used to prevent the cowling from moving forward and has the following functions. NOTE The low oil pressure warning indicator The water separator and engine trouble does not indicate the engine oil level. For fuel This meter shows the trim angle of your out

ther information on reading the indicator, see board motor. Consult your Yamaha dealer if the problem can not be located and corrected. EMU26816 Overheat warning This engine has an overheat warning device. ECM00100 If equipped with a low oil pressure warning CAUTION indicator, it will light or blink. Installation EWM00830 ECM00110 WARNING CAUTION Improper mounting of the outboard mo Incorrect engine height or obstructions tor could result in hazardous conditions to smooth water flow such as the design such as poor handling, loss of control, or or condition of the boat, or accessories fire hazards. <http://airconbank.com/upload/fckeditor/commax-manual-dp-ra01.xml>

Con not working properly, have it inspected sult your Yamaha dealer boat and repaired before operating the out manufacturer for further information on de board motor. Otherwise an accident terminating the proper mounting height. Check fuel line connections to be sure they are tight if equipped Yamaha fuel tank or boat tank. Be sure the fuel tank is positioned on a se cure, flat surface, and that the fuel line is. Ring Free Fuel Addi tive has repeatedly proven its ability to clean ZMU02022 combustion deposits from inside the engine,. Then firmly connect the other end of the fuel line to the joint on the fuel tank. ZMU02025 EMU27490 Starting engine ZMU04048 EMU27541 Starting engine Place the gear shift lever in neutral. ZMU02024 If a steering friction adjuster is provided on your outboard motor, securely attach. Avoid accidentally pulling the lanyard during normal operation. Loss of en gine power means the loss of most steering control. Also, without engine power, the boat could slow rapidly. This could cause people and objects in the boat to be thrown forward. Then install the lock plate on the other end of the lanyard into the en gine stop switch. EWM00120 WARNING Attach the engine stop switch lanyard to a secure place on your clothing, or your arm or leg while operating. Do not attach the lanyard to clothing that could tear loose. Loss of en NOTE gine power means the loss of most When the engine is cold, it needs to be steering control. Also, without engine warmed up. For further information, see power, the boat could slow rapidly. This page 35. Consult Forward tiller handle and remote your Yamaha dealer if the cause for the control models low oil pressure warning indicator can Tiller handle models not be found. Do not open the throttle more than half. Oth erwise the boat could become unstable, which could result in loss of control and an accident. Oth erwise the boat could become unstable, which could result in loss of control and an accident.

Tiller handle models Place the throttle grip in the fully closed position. Remote control models Pull up the neutral interlock trigger if equipped and move the remote control lever quickly and firmly from neutral to. Stop ping the engine immediately after operating at high speed is not recommended. EMU27861 Trimming outboard motor The trim angle of the outboard motor helps determine the position of the bow of the boat in the water. Correct trim angle will help im prove performance and fuel economy while reducing strain on the engine. Adjust the outboard motor trim angle using the power trim and tilt switch. 1. Power trim and tilt switch ZMU04059 1. Trim operating angle EMU27882 Adjusting trim angle Power trim and tilt models ZMU04060 EWM00751 WARNING. To lower the bow "trimin", tilt the engine Make test runs with the trim set to different down. EWM00220 WARNING Be sure all people are clear of the out board motor when tilting up and down, also be careful not to pinch any body parts between the drive unit and engine bracket. EWM00250 WARNING Bow Down Leaking fuel is a fire hazard. ZMU04063 Place the tilt lock lever in the release po sition. EMU28041 Procedure for tilting down manual and hydro tilt models Release the tilt lock lever.Run the boat at the lowest possible speed when using the shallow water cruising system. Use extra care when operating in re verse. Too much reverse thrust can cause the outboard motor to lift out of the water, increasing the chance of ac cident and personal injury. Return the outboard motor to its normal position as soon as the boat is back in Pull the tilt lock lever up to the release. Cruising in turbid water Yamaha strongly recommends that you use the optional chromiumplated water pump kit not available for some models if you use the outboard motor in turbid or muddy water. Spark plug with resistor NGK Likewise, "SUS". Consult your Yamaha 18.0

Nm 13.3 ftlb 1.84 kgfm dealer for further details. EMU28222.

<http://www.drupalitalia.org/node/70212>

Cooling system flushing is essential to Grease all grease fittings. For further de prevent the cooling system from clog tails, see page 58. EMU28442 Flushing power unit Antidote EXTERNAL Perform this procedure right after operation SKIN Flush with water.EYES Flush with water for 15 minutes ECM01530 and get immediate medical attention. CAUTION Antidote INTERNAL Do not perform this procedure while the. When flushing the engine with the boat in. The “ ” symbol indicates the checkups which you may carry out yourself. The “ ” symbol indicates work to be carried out by your Yamaha dealer. Initial Every 50 hours Item. EMU28952 Cleaning and adjusting spark plug Instead, take the outboard motor to a EWM00560 Yamaha dealer. You should periodically re WARNING move and inspect the spark plug because. If a problem is found, your Yamaha 2. Spark plug I.D. mark NGK dealer or other qualified mechanic should re pair it immediately. Verify whether the idle speed is set to specification. For idle speed specifica tions, see page 49. Consult Drain screw tightening torque your Yamaha dealer if the problem can 18.0 Nm 13.3 ftlb 1.84 kgfm For more information on the disposal of NOTE used oil, consult your Yamaha dealer. If any leaks are found, consult your Yamaha Change the oil more often when operating dealer.NOTE Consult your Yamaha dealer if any operation is abnormal. ZMU01897 EMU29171 Checking propeller. If this happens, the shear pin must be replaced. Apply Yamaha marine grease or a cor rosion resistant grease to the propeller EMU30660 Removing the propeller shaft. Consult a Yamaha dealer for re the outboard motor falls on you.Yamaha outboard motors are protected from Wipe up any spilled fuel immediately.Inspect the Reassemble the fuel tank carefully. Im external anodes periodically. Get immediate medical attention.

<http://huounaixunghe.com/images/canon-mvx100i-service-manual.pdf>

Batteries also generate explosive hydro gen gas; therefore, you should always follow these preventive measures Charge batteries in a wellventilated ar Keep batteries away from fire, sparks, ZMU02820 or open flames for example welding equipment, lighted cigarettes, and so. Do not use antifouling paint which includes copper or graphite. These paints can cause more rapid engine corrosion. ZMU01943. If your outboard motor requires repair, bring A. Have serviced by a Yamaha dealer.If the engine trouble warning indicator is Q. Are spark plugs fouled or of incorrect flashing, consult your Yamaha dealer. Be sure to use the specified fuse. An in. EMU29532 Starter will not operate If the starter mechanism does not operate. Loss of en gine power means the loss of most steering control. This could cause people and objects in the boat to be thrown forward. Otherwise some corrosion may begin almost immedi ately. If you cannot immediately take the outboard motor to a Yamaha dealer, follow the proce dure below in order to minimize engine dam age. These manuals vary with respect to the manufacturer and in regards to the models of boat engines produced by the manufacturer. These service manuals are not always made available to the end users but to dealerships of the outboards so that their mechanics can be able to fix the boat engine during and after warranty periods. The ease of understanding these manuals and their comprehensive nature is the greatest value of the manual to the owners for with the right combination of tools can facilitate and complete disassembling and assembling of an outboard motor. These manuals do not entail the indepth guidelines of maintenance and servicing that would be required for a complete assembling and disassembling. Its often supplied along with the purchase of an outboard.

<http://hwprigging.com/images/canon-mv901-manual-usuario.pdf>

It's main details are These manuals are thus the proper guides to you receiving the best you can from your outboard by giving you detailed step by step guidelines on how to best maintain the

impeccability of your motor. Get the right outboard manual and have yourself the best boating experience.
